La Secretaría del Organismo Internacional de Energía Atómica (OIEA) saluda a los Estados Miembros del OIEA y tiene el honor de señalar a su atención la celebración de la **Reunión Técnica sobre el Enfoque de los Hitos en el Desarrollo de una Infraestructura Nacional de Energía Nucleoeléctrica** (denominada en adelante el “evento”), que tendrá lugar en la Sede del OIEA en Viena (Austria) del **27 al 29 de octubre de 2021**.

Además, se podrá participar en el evento de forma virtual a través de Cisco Webex.

La finalidad del evento es recopilar retroinformación de los Estados Miembros para la revisión de la publicación del OIEA titulada *Milestones in the Development of a National Infrastructure for Nuclear Power* (Colección de Energía Nuclear del OIEA N° NG-G-3.1 (Rev.1)).

En la reseña informativa adjunta se ofrecen más detalles sobre el evento.

El evento se celebrará en inglés.

Se invita a los Estados Miembros a designar a una o más personas para que participen en este evento en representación de su Gobierno y se los alienta encarecidamente a que seleccionen con ese fin a mujeres calificadas.

Por lo general, el OIEA no está en condiciones de sufragar los gastos de viaje ni de otra índole de los participantes en el evento. No obstante, dispone de fondos limitados para ayudar a cubrir los gastos de asistencia de determinados participantes. Esa ayuda puede ofrecerse normalmente, previa solicitud expresa, a un participante por país siempre que, en opinión del OIEA, la persona para la que se solicite pueda hacer una contribución importante al evento. La solicitud de apoyo financiero debe presentarse en el momento de la designación de los participantes mediante el formulario de solicitud de subvención adjunto (Formulario C).

Cabe señalar que el OIEA no paga ninguna indemnización por daños o pérdida de efectos personales. Tampoco proporciona seguro médico a los participantes en eventos del OIEA. Por lo tanto, se recomienda que estas personas adopten las medidas necesarias para contratar por su cuenta un seguro privado. No obstante, el OIEA cubrirá mediante un seguro los accidentes y las enfermedades claramente relacionados con los servicios prestados al OIEA.

Las designaciones deben presentarse al OIEA por conducto de la autoridad nacional competente (el Ministerio de Relaciones Exteriores, la Misión Permanente ante el OIEA o la Autoridad Nacional de Energía Atómica), a más tardar el **20 de agosto de 2021**, por medio del formulario de participación adjunto (Formulario A). Los formularios de participación debidamente cumplimentados y autorizados deben enviarse por correo electrónico a la dirección [Official.Mail@iaea.org](mailto:Official.Mail@iaea.org) o por fax al número: +43 1 26007 (no se precisan copias impresas). Asimismo, han de enviarse copias por correo electrónico al Secretario Científico del evento, Sr. José Bastos (correo electrónico: [J.Bastos@iaea.org](mailto:J.Bastos@iaea.org)),

de la División de Energía Nucleoeléctrica, Departamento de Energía Nuclear, y a la Secretaria Administrativa, Sra. Valentyna Dzyubenko (correo electrónico: [V.Dzyubenko@iaea.org](mailto:V.Dzyubenko@iaea.org)). Una vez recibidas las designaciones oficiales, el Secretario Científico del evento contactará directamente a los participantes en relación con otras cuestiones de organización, como los detalles del viaje, según proceda.

El OIEA no se hace responsable de virus informáticos, gusanos, troyanos, puertas traseras, temporizadores, relojes, contadores o cualquier otra rutina, instrucción o diseño que limiten el funcionamiento, u otro código no solicitado malicioso, ilícito o similar, incluidos programas de vigilancia o rutinas que puedan permitir a cualquier persona, o por iniciativa propia, el acceso con el objetivo de borrar, o dañar o modificar de cualquier otro modo datos o sistemas, servidores, instalaciones u otra infraestructura del usuario final (colectivamente, “código inhabilitante”). Asimismo, el proveedor de los servicios para la reunión virtual ha asegurado y garantizado que los Servicios no contendrán, ni ningún usuario final recibirá del programa informático empleado para celebrar la reunión virtual, ninguno de estos códigos inhabilitantes.

La Secretaría del Organismo Internacional de Energía Atómica aprovecha esta oportunidad para reiterar a los Estados Miembros del OIEA el testimonio de su distinguida consideración.

# **Technical Meeting on the Review of Milestones in the Development of a National Infrastructure for Nuclear Power**

**IAEA Headquarters, Vienna, Austria**  
and virtual participation via Cisco Webex

**27–29 October 2021**

**Ref. No.: EVT2003707**

## **Information Sheet**

### **Introduction**

To introduce nuclear power, a wide range of infrastructure issues needs to be considered. The IAEA described these issues in the 2007 brochure *Considerations to Launch a Nuclear Power Programme*, targeted mainly at policy makers. Later that year, the IAEA followed up with the original version of this publication, *Milestones in the Development of a National Infrastructure for Nuclear Power*, which expanded the three phases of development outlined in the brochure and laid out a sequential process to develop a nuclear power programme. It provided a more detailed description for a broader audience of the full range of infrastructure issues to be addressed and the expected level of achievement for each issue by the end of each phase.

*Milestones in the Development of a National Infrastructure for Nuclear Power*, or ‘Milestone Approach’ was well received from its publication. It is widely used, and its framework and terminology have been broadly adopted.

In 2015 the revision 1 of the ‘Milestones Approach’ was issued. It took into account lessons learned from the 2011 Fukushima Daiichi accident and the implementation of the IAEA Action Plan on Nuclear Safety. Also the original publication was framed in the context of a competitive bidding process, assuming this would apply in most cases. However, other approaches were observed in embarking countries, involving, for example, strategic partners, sole suppliers and direct negotiations through intergovernmental agreements. This feedback was also incorporated in the document.

Six years after the revision 1 of the ‘Milestone Approach’, two embarking countries that developed their national programmes based on the methodology proposed in the document, started operating their first units. Other embarking countries are in the stage of negotiating contracts with technology providers or are in an advanced stage of infrastructure development. Moreover, more than 30 INIR missions were conducted where gaps and best practices were identified.

Recently several embarking and expanding countries expressed an interest on SMRs and requested the IAEA support on the application of the ‘Milestones Approach’. A Technical Meeting was held in 2020 and concluded that the 19 issues of the Milestones approach apply as well to programmes based on SMRs; however some aspects of the infrastructure could be implemented or considered differently. Among others, this is the case of the issues related to financing, regulatory framework, emergency planning, siting, and industrial involvement.

The current revision of the publication is intended to incorporate the lessons learned from Member States in using the ‘Milestones Approach’, present the main findings of INIR missions as well as to reflect the differences in the infrastructure required for a large nuclear power plant and that of a SMR.

## **Objectives**

The objectives of the meeting are threefold:

- Collect feedback from Member States on the use of the ‘Milestones Approach’;
- Discuss specific infrastructure considerations for SMRs to be included in the publication and how to address them;
- Discuss topics of the publication requiring changes or improvements.

## **Target Audience**

The meeting is open to participants from key organizations in embarking countries responsible for nuclear power programme infrastructure development. The meeting is also open to representatives from Member States with nuclear power plant operating experience that are considering to expand their fleet of reactors.

Participants should have experience with the ‘Milestones Approach’ and be authorized to describe and discuss in depth the experience and lessons learned. Participants should have a good working knowledge of English to enable them to actively contribute to the discussions.

## Working Language

English.

## Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **20 August 2021**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by the above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Participants are hereby informed that the personal data they submit will be processed in line with the Agency's Personal Data and Privacy Policy and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. Further information can be found in the Data Processing Notice concerning IAEA InTouch+ platform.

## Expenditure and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)**, which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **20 August 2021**.

## Venue

The event will be held at the Vienna International Centre (VIC), where the IAEA's Headquarters are located, specifically in Press Room, Building M, and will start at 9.30 a.m. on Wednesday, 27 October 2021, and end at 1 p.m. on Friday, 29 October 2021. Participants must make their own travel and accommodation arrangements.

General information on the VIC and other practical details, such as a list of hotels offering a reduced rate for IAEA participants, are listed on the following IAEA web page:

<http://www-pub.iaea.org/iaeaevents/GeneralInfo/Guide/VIC>.

Participants are advised to arrive at Checkpoint 1/Gate 1 of the VIC one hour before the start of the event on the first day in order to allow for timely registration. Participants will need to present an official photo identification document in order to be admitted to the VIC premises.

## **Visas**

Participants who require a visa to enter Austria should submit the necessary application to the nearest diplomatic or consular representative of Austria at least four weeks before they travel to Austria. Since Austria is a Schengen State, persons requiring a visa will have to apply for a Schengen visa. In States where Austria has no diplomatic mission, visas can be obtained from the consular authority of a Schengen Partner State representing Austria in the country in question.

## **IAEA Contacts**

### **Scientific Secretary:**

**Mr Jose Bastos**

Division of Nuclear Power  
Department of Nuclear Energy  
International Atomic Energy Agency  
Vienna International Centre  
PO Box 100  
1400 VIENNA  
AUSTRIA

Tel.: +43 1 2600 22504

Fax: +43 1 2600 29598

Email: [J.Bastos@iaea.org](mailto:J.Bastos@iaea.org)

### **Administrative Secretary:**

**Ms Valentyna Dzyubenko**

Division of Nuclear Power  
Department of Nuclear Energy  
International Atomic Energy Agency  
Vienna International Centre  
PO Box 100  
1400 VIENNA  
AUSTRIA

Tel.: +43 1 2600 26736

Fax: +43 1 2600 29598

Email: [V.Dzyubenko@iaea.org](mailto:V.Dzyubenko@iaea.org)

Subsequent correspondence on scientific matters should be sent to the Scientific Secretary/Secretaries and correspondence on other matters related to the event to the Administrative Secretary.

# Participation Form

## Technical Meeting on the Milestones Approach in the Development of a National Infrastructure for Nuclear Power

IAEA Headquarters, Vienna, Austria and virtual participation via Cisco Webex

**27–29 October 2021**

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: [Official.Mail@iaea.org](mailto:Official.Mail@iaea.org) or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary [J.Bastos@iaea.org](mailto:J.Bastos@iaea.org) and to the Administrative Secretary [V.Dzyubenko@iaea.org](mailto:V.Dzyubenko@iaea.org).

**Deadline for receipt by IAEA through official channels: 20 August 2021**
